BIOCHEMISTRY

Apolipoprotein B <i>Sample: Serum</i> <i>Method: Immuno Nephelometry</i>	133.0	63.0 - 133.0	mg/dL
---	-------	--------------	-------

Apolipoprotein B

Apolipoprotein B is a more powerful independent predictor of Coronary Heart Disease (CAD) than LDL Cholesterol. It is useful in assessing the risk of CAD and to classify Hyperlipidemias. Apolipoprotein studies help in monitoring coronary bypass surgery patients with regard to risk and severity of re-stenosis. They are also useful in assessing risk of re-infarction in patients of Myocardial infarction.
