**BIOCHEMISTRY****# Phenytoin (Eptoin & Dilantin)**

Sample: Serum

12.20

10.00 - 20.00

µg/mL

**Phenytoin (Eptoin & Dilantin)**

Phenytoin is commonly monitored by immunoassay because total circulating levels of the drug correlate more strongly with therapeutic effect and toxicity than does the administered dose. Dosage optimization must take into account the patient's clinical response to the drug. Low levels may be associated with inadequate control and high levels may be associated with symptoms of neurotoxicity.
